

Trend Micro™

TITANIUM™ PREMIUM SECURITY

Relax. We make it easy to safeguard your digital life.

Trend Micro™ Titanium™ Premium Security is complete protection for your data and devices. It provides easy-to-use protection for everything you and your family do online, no matter how you connect to the Internet. It features:

- Protection for up to 5 devices—Windows PCs, Mac computers, Android tablets or Android smartphones
- A 25 GB Trend Micro™ SafeSync™ account for secure anytime accessing and sharing of your digital life
- A friendly interface with simple screens and clear, easy-to-understand reports
- Set-and-forget security that won't pester you with annoying alerts and pop-ups

Trend Micro Titanium is protection made easy.

KEY BENEFITS:

- Blocks viruses, malware, and malicious links shared through email and IM
- Protection for 5 of your devices—you decide which ones
- 25 GB of Trend Micro™ SafeSync™—secure online storage for your valuable files, always accessible from any of the 5 devices
- Identifies safe and malicious search results links in Chrome, Internet Explorer, and Firefox
- Identifies safe and malicious links in popular social networking sites like Facebook, Twitter, Google+, LinkedIn, and Pinterest
- Identifies settings that may leave your personal information vulnerable with the new Facebook Privacy Scanner feature
- Helps keep kids safe online with customizable parental controls
- Protects your data from loss or theft with tools that include Secure Erase file shredder, and Trend Micro™ Vault with remote file lock
- Has a friendly interface and is easy to install
- Provides simple screens and clear, easy-to-understand reports
- Features set-and-forget security that won't pester you with annoying alerts and pop-ups
- Blocks viruses, malware, and malicious links shared through email and IM

Want the most comprehensive social networking safety?

It's easy, just become "friends" with Trend Micro Titanium—your key to social networking safety. It identifies dangerous links on Facebook, Twitter, Google+, LinkedIn, MySpace, Pinterest, and more. Now, you can be confident that it's safe to click on a shared link.

Automatically scans your wall to visually show you what links are safe or malicious

Helps you warn your friends when they post dangerous links
